ABOUT

A 28-years-old software developer; markets, LLM and programming language theory enthusiast, self-proclaimed artist. Easily gets enamored with new ideas, despite being buried under a heavy load of an ever-growing list of TODO entries.

EDUCATION

Herzen State Pedagogical University B.S. in Information Systems & Technologies	<i>2015/09 - 2019/07</i>
ITMO University Software Engineering - Corporate Master's degree program by JetBrains (no degree)	<i>2019/09 - 2020/02</i>
ITMO University Big Data and Machine Learning, Master's program (no degree)	<i>2021/02 - 2022/02</i>

EMPLOYMENT HISTORY

Typeable Software Development (B2B solutions for travel industry, Haskell, Servant, PostgreSQL, Reflex FRP).	<i>2020/08 - 2022/01</i>
MLabs Software Development, Technical Leadership, cardano-transaction-library; Led the creation of the cardano-purescript ecosystem; Technical Leadership - Purus, a PureScript to Plutus Core compiler; Cardano dApp development (various) Cardano Query Layer standardization efforts - (link).	<i>2022/01 - 2024/10</i>
EmberAI LLM workflow automation (chatbots) for Web3 protocols. Rust, TypeScript.	<i>2025/01 - 2025/07</i>
edge.dog Web search automation with LLMs, knowledge bases, React, NodeJS, TypeScript	<i>2025/09 - 2026/03</i>

OTHER SOFTWARE PROJECTS

purescript-docs-search Web Application, PureScript Halogen A search frontend for the documentation generated by the PureScript compiler (now merged with spago, PureScript's package manager)
dzen-dhall Linux Desktop Customization, Application, Haskell A configuration manager for dzen2 featuring a Dhall-based DSL for interactive widgets
Switch To Audible Tab Browser Extension, PureScript A WebExtension that simplifies browser tab navigation

More available [here](#).

LANGUAGES

- English
- Russian - Mother tongue

TECHNICAL STRENGTHS

- Proficient in: Rust, TypeScript, Haskell, PureScript, LLM APIs, Ethereum tooling, Plutus and Cardano tooling, Shell scripting, Python (ML tooling), SQL, React;
- Has experience with: Nix, Docker, C, C++, PHP, Dhall, Reflex (FRP framework), purescript-halogen;
- Other Skills: Technical Writing, Project Management, Technical Leadership, Software Architecture.

PERSONAL INTERESTS

- **Computer Science:** Programming Language Theory, Type Theory, Compilers;
- **Software Development:** Software Architecture, Functional Reactive Programming, Use of LLMs in software development;
- **Blockchains:** Consensus Research, MEV, Ledger Design;
- **Other:** Music, Algorithmic Art
